

CULTURE

The Culture Committee offers a varied and challenging programme, featuring music, theatre, literature, politics and more in many different ways.

SERET, the film club founded jointly in 2010 by the Culture Committees of the JLG (Jewish Liberal Community) and the ICZ, has created a very popular focal point for film.

We strive to provide a forum for international artists, without neglecting local Jewish art and culture. Topics concerning Israel are also close to our hearts.

And if you're looking for a friendly, fully egalitarian Shabbat morning service, you can join the Shabbat Yachdav group's monthly event, held at our community centre. Check for the next date in the events listing.

We hope there's something in our offering for you too. Have fun!
